HLTSS00064 INFECTION CONTROL SKILL SET

About this course:

Be at the forefront of health and safety in the workplace. This nationally recognised skill set is designed to advance your skills and knowledge in infection prevention and control. Learn how to follow organisational policies and procedures, implement both standard and transmission-based precautions, and effectively respond to potential infection risks.

Complete your study online, with support from your trainer via webinar and video assessment. A must-do for current healthcare sector employees or anyone seeking a professional development opportunity to stay compliant, informed, and safe at work.

UNIT: HLTINF001 Comply with infection prevention and control policies and procedures

ELIGIBILITY: We are an approved Smart and Skilled provider. Please contact the ACE Community Colleges customer care team to discuss the eligibility criteria*.

This training is subsidised by the New South Wales Government.

Change your world.
